Care and convenience in one

- Helps to keep brushes in perfect condition
- User-friendly
- Clean
- Handy and quick

GO! Paint

Innovation in decoration

Clip and Go is a very handy painters tool. Working awkwardly with various brushes in your hand isn't necessary anymore. Just click your brush(es) in the Clip and Go and your hand(s) are free during your paint job. Click the Clip and Go on an inliner, put the inliner in the paint kettle, and Clip and Go is ready to use.

Perfect condition of brushes

- Because the bristles hang in the paint without touching the bottom of the paint kettle, the brushes stay in perfect condition

User-friendly

- Freedom of movement: one brush in the hand, the brushes which are not in use, can be clicked into the Clip and Go
- There are no loose brushes in the paint kettle

Clean

- Dripping paint from brushes is history: having a break you don't have to put the brush over the paint kettle, but click them into the Clip and Go

Handy and quick

- The clicking of the brushes into the Clip and Go is fast and easy
- Suitable for round and flat paint brushes
- Into each Clip and Go 2 brushes can be clicked. Several can be used alongside one another

Clip and Go, care and convenience in one

Clip and Go is a product of:
